Parag Parikh ELSS Tax Saver Fund

An open ended equity linked saving scheme with a statutory lock in of 3 years and tax benefit

ARN

An India-centric Scheme suitable for long-term capital appreciation

The Scheme is the third Offering from PPFAS Mutual Fund.

Parag Parikh ELSS Tax Saver Fund

India-centric Scheme

At least 80% of the Parag Parikh ELSS Tax Saver Fund's corpus will be invested in Indian equities.

It has the freedom to:

- Invest in stocks of small, medium and large-sized Companies based in India.
- Invest in any sector or industry within India which appears to be attractively valued
- Participate in buy-backs and other special situations within India.

About the Scheme...

It is an open-ended Equity Linked Savings Scheme (ELSS) with a statutory lock-in of 3 years and tax benefit from the date of investment for every investment instalment.

Indian investors who invest in this Scheme are eligible for Income Tax deduction u/s 80C upto a sum of Rs. 1.50 lakhs^. However, this is not a ceiling. Amounts beyond that can also be invested in the Scheme.

While the income tax relief is certainly beneficial to many, the Scheme's other attributes mean that it could also be attractive to those who have exhausted this limit.

Also, we have always maintained that equity investments are best suited for investors who can remain invested for at least five years. The three year lock-in in Parag Parikh ELSS Tax Saver Fund is much lower than this, and therefore should not deter you.

It enjoys the same Capital Gains Tax benefits as available to other equity oriented schemes (viz. Gains will be taxed at a flat rate of 10%*)

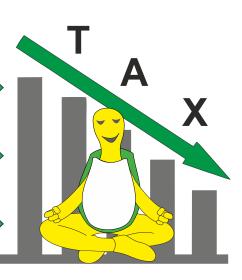

*As per Income Tax Rules prevailing for the Financial Year 2023-24

^Please consult your financial advisor for any tax related information applicable to your investments

Understand that equity investments are ideal investments only for the long-term

Our scheme is ideal for patient investors who Prefer simple investment solutions rather than complex ones

> Welcome, rather than fear, stock market volatility
