A LOCAL FUND WITH GLOBAL FOCUS*

Global advantage... Without any tax disadvantage.##

Parag Parikh Flexi Cap Fund (PPFCF) is one of only a handful of Indian mutual fund schemes to invest in a basket of domestic and foreign stocks.

Why diversify globally...

- Reducing 'country risk'
- Winners keep rotating
- Reducing portfolio volatility
- Wider choice
- Valuations

*##'Tax disadvantage' refers to higher 'Capital Gains Tax' paid by investors in other 'global' equity mutual fund schemes

WHAT ABOUT FOREIGN CURRENCY RISK?

- We prefer to concentrate on stock-picking rather than forecast currency movements
- However, we hedge a portion our exposure to reduce the risk of our investors losing due to any appreciation of the Indian rupee
- As the Forward rate of the Indian Rupee is usually at a premium to the Spot Rate, our investors often earn an additional yield, irrespective of how the underlying stocks perform

Please note: The yield may or may not sustain in the future, as it depends on factors like interest rate & inflation differentials between two currencies, which cannot be predicted with much accuracy.

HOW DO WE SHORTLIST INTERNATIONAL STOCKS

1. We prefer countries where stock markets are well-developed
2. Good governance is in place
3. Financial statements are prepared in English and stock markets are liquid

Within these countries...

We seek companies which are large, have operations in multiple countries and are reasonably valued.

Currently, we are focusing on companies listed mainly in USA, Western Europe and Developed Asia as we have access to a large universe of companies which possess all these attributes.

Note: Constituents of the overseas portfolio, as well as their overall share in the total will fluctuate based on the the Fund Management Team's view of domestic and foreign markets, regulatory stipulations, restriction on foreign currency remittances, etc. Investors are requested to consult their financial, tax and other advisors before taking any investment decision(s).

TAX EFFICIENT

65% of corpus invested in Indian equities. Hence it enjoys the same tax benefits as any other Indian equity mutual fund scheme, despite it having the freedom to invest in foreign stocks.

Note : Investors are requested to consult their financial, tax and other advisors before taking any investment decision(s)
